

Dissemination of the third project meeting in Trysil - Norway 9.03 – 14.03.2014

Monday, 10th March 2014, by Bartłomiej Garcarz

On the first day we visited TRYSIL VIDEREGAAENDE SKOLE. Despite the cold weather we were welcomed very warmly by the head teacher, teachers and students. The host students showed us their school. After that Norwegian students organized guided tour around their picturesque town surrounded by mountains. The mayor of the town invited us to a presentation about Norway and Trysil. The students from the school offered us traditional Norwegian food: salmon, herring, reindeer meat. After lunch, both teachers and students working in mixed teams evaluated the different logos from partners' countries. Each country presented its own logo. We selected one logo which was the basis from which we made the final one.

Our Norwegian partners took us to the mountains to go skiing. The Norwegians helped especially those who did not know how to ski. They were very patient. We could choose between slopes for beginners and advanced skiers. It was an amazing experience. The students again served us traditional food, Semi soup and bread.

After that, at school the students from different countries presented their own tourist guides. They talked about interesting places, UNESCO world heritage sites, traditional food. All the partners had opportunity to exchange opinions connected with different aspects of culture, cuisine.

At 9.00 o'clock in the morning we went on a trip to Oslo. The trip took three hours. We could admire beautiful Norwegian landscape. We visited "Fram Museum" with a huge ship, Fram. We listened to an amazing story about sailors from the ship. Then we visited "Viking Ship Museum". We saw Viking's ships and their everyday items. We also explored the capital city, monuments, famous buildings.

The students attended creative workshop. We made bookmarks using different techniques. It was very creative work. We could exchange our opinions about the products we made.

Both, teachers and students evaluated our meeting in Norway. The teachers, during their working session talked about the final products for the next project meeting in Spain.

We evaluated the third project meeting in Norway.

Dissemination made by Polish team:
